EDUCATION

Motilal Nehru National Institute of Technology (MNNIT), Allahabad <i>B.Tech, Electronics and Communication Engineering – CPI: 8/10</i>	Nov 2022 – Aug 2026 Prayagraj, India
Archana Children's Academy, Jaipur <i>Higher Secondary (RBSE) – 96.80% — Secondary (RBSE) – 94.14%</i>	2018 – 2021 Jaipur, India

EXPERIENCE

DealShare (Merabo Labs Private Limited) <i>Software Development Engineer Intern – Data Engineering</i>	Jan 2026 – June 2026 Bengaluru, India
- Developed a scalable BigQuery monitoring pipeline in Databricks using Python and Pandas, automating telemetry collection, and reporting across 150+ production pipelines and 80+ Tableau data sources. - Implemented automated anomaly detection, alerting, and service-health monitoring to identify abnormal BigQuery cost spikes, improving operational reliability, incident response, and platform stability. - Optimized large-scale BigQuery SQL workloads through partition pruning, join optimization, and query refactoring, reducing scan costs by 57%, query runtime by 20%, and slot utilization by 19.7%. - Engineered reusable BigQuery tables, materialized views, and automated data services to replace custom SQL models, improving performance, scalability, platform uptime, and cost efficiency by 50%.	

PROJECTS

Automated HR Outreach Pipeline <i>Python, Selenium, Web Scraping, Mailmeteor</i> GitHub	Aug 2026
- Engineered a web scraping pipeline using Python and Selenium to systematically extract HR contact information from Instahyre, significantly streamlining the lead-generation process. - Developed an automated email outreach system leveraging code-based logic and Mailmeteor to dispatch personalized, targeted campaigns at scale, eliminating manual effort.	
Thread-Safe API Rate Limiter <i>Java, Multithreading, Concurrency</i> GitHub	July 2026
- Designed a highly concurrent rate limiter using the Fixed Window Counter algorithm and object-level locking via Java's synchronized mechanism to strictly control API limits and eliminate race conditions. - Validated strict thread safety by simulating high-load environments, utilizing ExecutorService and CountDownLatch to orchestrate and synchronize 100+ simultaneous thread executions.	
URL Shortener Service <i>Redis, Docker, REST APIs</i> GitHub	June 2026
- Developed a URL shortening service using Node.js, Express.js, and MongoDB, supporting custom URLs, fast redirection, and detailed click analytics. - Implemented Redis for caching and rate limiting, and containerized the application using Docker to enhance performance, security, and deployment reliability.	
Food Delivery Platform <i>MongoDB, Express.js, React.js, Node.js, Socket.io</i> GitHub	May 2025
- Built a scalable Full-Stack Food Delivery Platform using the MERN Stack, designing 20+ modular RESTful APIs with optimized MongoDB indexing, order tracking, inventory management, and a responsive UI. - Integrated Stripe Payment Gateway for secure checkout and enforced robust security utilizing JWT Authentication, Role-Based Access Control (RBAC), middleware validation, bcrypt, and CORS. - Developed a real-time chat platform Socket.io, enabling low-latency messaging. Implemented online presence tracking and message persistence.	

TECHNICAL SKILLS

- **Programming Languages:** C++, Python, Java, JavaScript
- **Data Engineering:** BigQuery, Databricks, ETL/ELT, Data Pipelines, Web Scraping, MySQL, Automation, Pandas
- **Backend Development:** Node.js, Express.js, REST APIs, Microservices, Multithreading, Concurrency, Selenium
- **DevOps & Tools:** Git, GitHub, Docker, CI/CD, Mailmeteor, Debugging, Testing
- **Core Computer Science:** Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Distributed Systems, System Design

ACHIEVEMENTS

- Solved **2000+ Data Structures and Algorithms** problems across **100+ rated contests**. Achieved **Codeforces Expert** with a max rating of **1600** and **LeetCode Knight** with a maximum rating of **1925** (Top **3.82%** globally).
- Secured a **Finalist** position in **Math Rush**, demonstrating advanced analytical and logical problem-solving skills.
- Secured **Rank 4 out of 1,000+ participants** in the Softathlon competition at MNNIT Allahabad.
